Co-op Academy
Belle Vue

Dear Belle Vue Students and Families,

We are delighted to present to you the Co-op Belle Vue Electives Programme 2023-2024, an exciting opportunity for your child to engage in a diverse range of activities beyond the curriculum.

The Electives Programme at Co-op Belle Vue is part of #TheBelleVueDifference, and is designed to support our mission statement of '*unlocking potential through expert knowledge and character*'. We believe that a strong co-curricular experience is essential for nurturing the unique talents, interests, and aspirations of each individual.

Through the Electives Programme, your child has the opportunity to choose three electives per term, ensuring a holistic approach to their personal development.

The three categories of elective are:

Academic Elective: This elective offers a chance for your child to explore an academic subject in more depth and breadth than the taught curriculum. It encourages intellectual curiosity, critical thinking, and a deeper understanding of various disciplines. These electives will particularly support our students in year 9 with making their GCSE choices.

Physical and Wellbeing Elective: Physical fitness and a healthy lifestyle are crucial for the overall well-being of our students. This elective focuses on developing physical strength, enhancing teamwork and leadership skills, and fostering a spirit of sportsmanship as well as supporting our students with mental wellbeing. Students can wear their full Coop PE kit to school on their Physical elective day.

#TheDifference Elective: We understand that every child has unique interests and talents that may not fit neatly into predefined categories. The Difference Elective is an open-ended opportunity for your child to explore a wide range of activities, such as arts, technology, debate, and more. This allows them to discover new passions and gain a broader perspective on their abilities.

Students can choose one elective from each category each term.

At Co-op Academy Belle Vue, we strongly believe in the power of a robust co-curricular program to shape our students' future success. Engaging in diverse activities beyond the classroom not only promotes personal development but also equips students with essential life skills that are highly valued in the modern world.

Our elective programme is designed to support our students to develop our Belle Vue CARE principles. These skills are not only beneficial during their school years but also greatly contribute to their future careers and personal achievements.

This guide has been designed to assist your child in selecting their electives for the upcoming term. It includes all relevant information for each elective.

Thank you,

Daniel Haste | Assistant Vice Principal - Personal Development

Unlocked Potential

“As a student at Co-op Academy Belle Vue, I eagerly anticipate my favourite parts of the day— the electives. The prospect of engaging in these activities at the end of each school day fills me with excitement. They are open to all students, allowing everyone to participate in a variety of options. This inclusivity not only enriches our learning experience but supports one of our CARE principles of community.”

Gloria - Year 9

“I feel like I have found out more about myself since taking part in electives and I have found hobbies that I would otherwise not have known about. The electives also promote our CARE principles.”

Olivia - Year 9

“My favourite elective was the boxing elective. I feel like my strength and stamina improved and I learnt key life skills like self defence. I also did the football elective. This was my favourite as I am very passionate about football and play outside of school, so this gave me a further opportunity to work on my skills. I also really liked the mini-apprentice elective as it helped me develop my leadership, confidence and teamwork skills.”

Melchizedek - Year 8

“The electives help us progress or start new skills. For example I didn’t really like football, but now that I have participated in the futsal elective I find it really fun and playing football more often. I think having electives in our school is a good idea”

Omotola - Year 8

Academic Electives

Academic
Elective

Computer Science - Humanising Artificial Intelligence

Elective Summary

Embark on an exciting investigation into how AI impacts your community, explore potential problems and solutions and show how AI can be used for the good.

What Knowledge Will I Gain?

You will acquire knowledge of the implications and impact of AI in the world around you. You will research the positive and negative impacts of AI and look at potential solutions. You will also present your findings using HTML to create websites.

What Skills Will I Gain?

You will develop problem-solving abilities, creativity in design, teamwork and collaboration, understanding of real-world applications, logical thinking, and confidence in presenting your work.

Which CARE principles will I develop?

How Does it Link to Future Careers?

These skills lay the foundation for future tech careers. Proficiency in programming languages, problem-solving, and creative thinking opens doors to fields like software development, data analysis, and digital design. AI is poised to change many industries and an understanding of AI will help in many areas.

Further Reading and Information

English - Latin and Classical Civilizations

Elective Summary

We will look at what "classics" has long been considered (erroneously) to be and decenter the 'Greco Roman as Classics' narrative. We will look at anti-racist/decolonial perspectives. For the rest of the course we will look into Latin as a language that has had a significant impact on the development of European language, read some Latin stories (in Latin) and look at grammar but also discuss mythology and the wider GrecoRoman tradition.

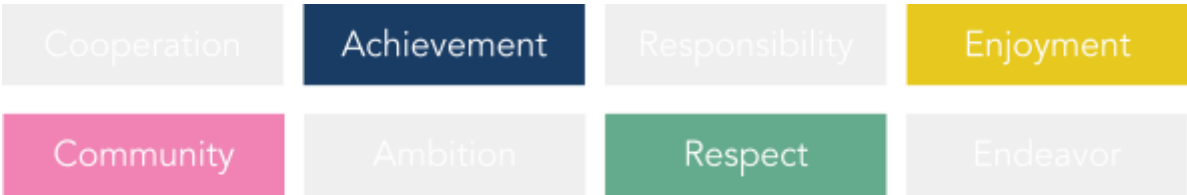

What Knowledge Will I Gain?

A knowledge of the origins of Greek and Roman civilisations and their impact. You will learn to read a new language (Latin) and understand better the impact this language has had on many European languages. It will help you with a lot of complex vocabulary across many of the subjects you study at school and beyond.

What Skills Will I Gain?

Decoding, linguistic skills,

Which CARE principles will I develop?

How Does it Link to Future Careers?

Latin cultivates language skills, analytical thinking, and cultural appreciation, enhancing careers in academia, linguistics, law, and history.

Further Reading and Information

Maths - The Belle Vue Maths Olympiad

Elective Summary

Welcome to the Belle Vue Maths Olympiad, where maths becomes an exciting adventure! Solve tricky puzzles, boost brainpower, and discover the magic of mental maths. Get ready for the big Mental Math Spelling Bee, where you'll show off your lightning-fast maths skills.

What Knowledge Will I Gain?

In the Math Olympiad Club, you'll learn cool problem-solving tricks, discover patterns in numbers, and become a master of mental maths. You'll know how to tackle tough maths challenges and impress everyone with your quick thinking.

What Skills Will I Gain?

You'll become a pro at solving tricky puzzles, improve your thinking skills, and learn how to do maths in your head really fast.

Which CARE principles will I develop?

How Does it Link to Future Careers?

In the Math Olympiad, you'll build problem-solving skills, which are super important in jobs like scientists, engineers, and computer wizards.

Further Reading and Information

Academic Elective

Geography - Belle Vue Geographic

Elective Summary

Students will investigate a geographical issue that they are interested in, similar to the topical magazine 'National Geographic'. The outcome of the resource project is open to student interests, for example students may wish to produce a newspaper article, a filmed news report, a blog, a podcast, a research poster or something else!

What Knowledge Will I Gain?

In-depth knowledge of an environmental issue of your choosing. This provides an opportunity for you to spend time engaging with an issue you are already interested in, or finding out more about the issues that our planet is currently facing.

What Skills Will I Gain?

You will develop skills in research, presentation, literacy and oracy.

Which CARE principles will I develop?

How Does it Link to Future Careers?

Journalism, media, multiple geography & science based careers!

Further Reading and Information

<https://www.nationalgeographic.com/>

Have a look at the national geographic website for some ideas of issues you might want to investigate further.

Science - CREST Discovery Award

Elective Summary

Students work in groups to solve a STEM challenge, or challenges, with minimal adult intervention. Then students present their work.

What Knowledge Will I Gain?

Students will gain knowledge in all areas of stem. Science, Technology, Engineering and Mathematics.

What Skills Will I Gain?

Students develop team-work and hands-on investigative skills. After successfully completing the project, students receive a personalised certificate.

Which CARE principles will I develop?

How Does it Link to Future Careers?

CREST Awards prepare students for diverse STEM careers including scientists, engineers, data analysts, programmers, researchers, architects, educators, and more by fostering critical skills like problem-solving, innovation, and collaboration.

Further Reading and Information

<https://www.crestawards.org/crest-discovery>

Science - CREST Bronze Award

Elective Summary

Students work independently or in groups to plan and run a project addressing a real-world STEM problem.

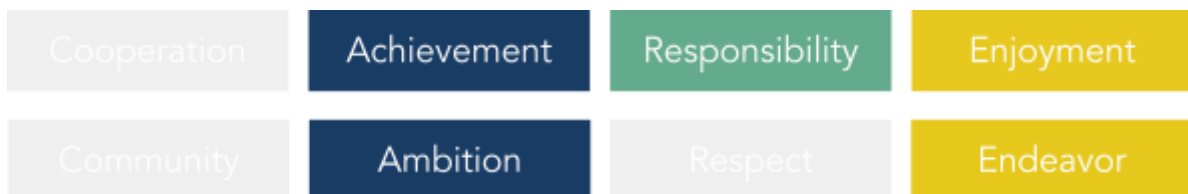

What Knowledge Will I Gain?

CREST Awards offer students hands-on STEM experience, fostering scientific concepts, research methods, problem-solving, technical skills, critical thinking, ethics, collaboration, communication, innovation, and practical application, boosting confidence and independence.

What Skills Will I Gain?

The project process develops enquiry, problem-solving and communication skills. CREST Bronze can be used by students to enhance their UCAS personal statements. After completing the project, each student receives a personalised certificate.

Which CARE principles will I develop?

How Does it Link to Future Careers?

CREST Awards prepare students for diverse STEM careers including scientists, engineers, data analysts, programmers, researchers, architects, educators, and more by fostering critical skills like problem-solving, innovation, and collaboration.

History - Manchester's DNA

Elective Summary

What are the 'building blocks' of Manchester? This focuses on place, identity, and family history in order for us to reflect upon the continuing evolution of our city and in particular how immigration has impacted upon our neighbourhoods.

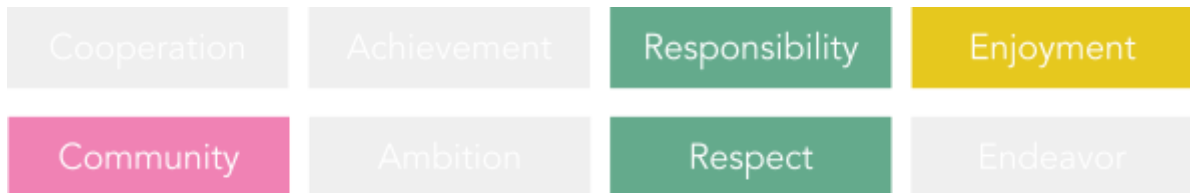

What Knowledge Will I Gain?

We will consider family history and identity as it relates to place through a series of workshops.

What Skills Will I Gain?

Critical thinking, research, and analytical skills. Students engage with past events, cultures, and perspectives, fostering a deeper understanding of human history.

Which CARE principles will I develop?

How Does it Link to Future Careers?

Education, research, journalism, archiving, museum curation, historical analysis, and cultural heritage preservation. Learning to substantiate an argument is vital in every career as the oracy skills will empower you in any interview scenario. Analytical skills will help you in many careers, from finance, IT to law and medicine.

Further Reading and Information

History - Model UN

Elective Summary

Students will learn about how the United Nations work and the many different disciplines that this involves. Students will be introduced to Law, Business and Government.

What Knowledge Will I Gain?

You will learn about political systems in different countries across the world. You will learn about their cultures, languages and government.

What Skills Will I Gain?

Model UN develops public speaking, negotiation, diplomacy, research, and critical thinking skills. Participants engage in global issues, fostering cultural awareness and understanding of international relations.

Which CARE principles will I develop?

How Does it Link to Future Careers?

Model UN prepares students for careers in international relations, diplomacy, law, politics, public policy, and advocacy by honing negotiation, communication, research, and problem-solving skills in a global context.

Further Reading and Information

<https://www.un.org/en/mun>

History - Hidden Histories

Elective Summary

Students will learn about narratives, events, and individuals who have been omitted from mainstream history. Students will research, discuss and explore these less well known historical accounts

What Knowledge Will I Gain?

You will learn about historical events which are less well known in modern day history.

What Skills Will I Gain?

Historical histories develops critical thinking skills, research skills and debating skills for particular historical events

Which CARE principles will I develop?

How Does it Link to Future Careers?

Hidden histories prepares students for careers in archivist, curator, historian, history teacher, archaeologist and librarian.

English - Carnegie Shadowing Scheme

Elective Summary

As part of a national reading for pleasure initiative, the Yoto Carnegie Shadowing Scheme will engage students in reading and discussing the exciting new books on the Carnegie Award shortlist. Students will evaluate the books, share their thoughts and vote for their favourite for the Shadowers' Choice Award.

What Knowledge Will I Gain?

Students will gain knowledge about exciting new literature for young people. They will then discuss the book and communicate with each other about what they enjoyed.

What Skills Will I Gain?

Reading skills, discussion and communication skills, evaluation skills.

Which CARE principles will I develop?

Cooperation	Achievement	Responsibility	Enjoyment
Community	Ambition	Respect	Endeavor

How Does it Link to Future Careers?

It will develop skills related to all careers linked to the book industry, publishing, librarianship, writing, teaching English.

Further Reading and Information

<https://yotocarnegies.co.uk/take-part/>

Science - Zoology

Elective Summary

Zoology offers students a chance to explore animal biology, adaptations and behaviour to survive. Students will deepen their understanding of animals and conservation.

What Knowledge Will I Gain?

Students will learn how animals are classified, their behaviours, habitats, adaptations, how they are conserved and the research techniques used to study them.

What Skills Will I Gain?

Observation, critical thinking, research, problem-solving, data analysis, teamwork, communication, ethical awareness, technical abilities, adaptability, empathy, environmental understanding—skills cultivated through the study of zoology.

Which CARE principles will I develop?

How Does it Link to Future Careers?

Zoology opens doors to careers as wildlife biologists, veterinarians, conservationists, zookeepers, researchers, educators, and environmental consultants, focusing on animal behaviour, ecology, and conservation.

Physical and Wellbeing Electives

Our Physical and Wellbeing electives include...

Dance:

In the Dance elective, you'll refine coordination, flexibility, and rhythm across diverse dance styles. Boost creativity, teamwork, and self-expression, gaining confidence and a lifelong passion for movement.

Football:

Join the Football elective to sharpen teamwork, communication, and strategic thinking. Build physical fitness, coordination, and sportsmanship while enjoying friendly competition and nurturing a love for the game.

Table Tennis:

At the Table Tennis elective, enhance quick reflexes, hand-eye coordination, and concentration. Improve motor skills, precision, and sportsmanship, developing an appreciation for this fast-paced and tactical sport.

Basketball:

In Basketball elective, boost agility, teamwork, and decision-making abilities. Develop endurance, spatial awareness, and effective communication, fostering camaraderie and sportsmanship among teammates.

Boxing:

Enrol in the Boxing elective to cultivate discipline, physical fitness, and mental focus. Learn self-defence techniques, enhance coordination, and build resilience while boosting confidence and embracing a healthy lifestyle.

Netball:

At the Netball elective, refine agility, quick thinking, and teamwork. Enhance passing, shooting, and strategic positioning, building communication skills and forging strong bonds with fellow teammates.

Rounders:

In the Rounders elective, enhance batting, fielding, and base-running skills. Develop hand-eye coordination, teamwork, and strategic thinking while relishing an engaging and fast-paced team sport.

Badminton:

At the Badminton elective, foster hand-eye coordination, agility, and quick reflexes. Improve racquet skills, strategic

positioning, and teamwork, enjoying physical activity and friendly competition alike.

Rugby:

At the Rugby elective, you'll cultivate teamwork, physical fitness, and strategic thinking. Enhance your passing, tackling, and communication skills while building camaraderie with teammates.

Dodgeball:

In the Dodgeball elective, improve agility, reflexes, and teamwork. Develop throwing accuracy, dodging skills, and spatial awareness in a fast-paced game.

Steel Pan:

Step into the rhythm and melody of our Steel Pan Club! Learn to play Caribbean steel drums, creating vibrant tunes as a team. Develop musical skills, teamwork, and cultural appreciation in a fun and energetic environment.

Hockey:

Develop skills in stick handling, passing, and teamwork. From mastering shots to perfecting defence, this club offers thrilling matches and camaraderie.

Futsal Club:

Sharpen your dribbling, passing, and shooting skills in fast-paced matches. Adapt to tighter spaces, enhance teamwork, and embrace the exhilarating atmosphere.

Cricket and sports games:

Designed for students who are passionate about cricket and working as a team to explore the game and work on skill development.

Tennis and Table tennis:

Caters for students with a passion for racquet sports. Offers students a chance to foster their skills and promote physical fitness.

Physical and
Wellbeing
Elective

Exercise For Physical and Mental Health...

Why should I participate in physical exercise after school?

Engaging in physical exercise helps keep your body healthy and strong. It boosts your energy, improves mood, and enhances concentration, making it easier to focus on schoolwork.

What benefits does physical exercise offer?

Regular exercise improves cardiovascular health, builds strong muscles and bones, and maintains a healthy weight. It also reduces the risk of chronic diseases like diabetes and promotes better sleep.

Can physical exercise help with stress?

Absolutely! Exercise releases endorphins, which are natural mood boosters. It helps reduce stress, anxiety, and depression, promoting mental well-being.

I'm not into competitive sports. How can exercise still benefit me?

Our electives aren't limited to competitive sports. We have activities like dance and less competitive sports like dodgeball. Physical activity improves your overall fitness, regardless of whether you're competing or just having fun.

How does exercise help my brain?

Physical activity increases blood flow to the brain, enhancing cognitive function and memory. It also encourages the growth of new brain cells, supporting learning and mental sharpness.

Can exercise improve my social life?

Definitely! Joining sports clubs or exercise groups lets you meet new friends who share similar interests. Team sports foster teamwork and communication skills, improving your social interactions.

How can exercise improve my self-esteem?

Accomplishing physical goals, whether small or large, boosts your self-confidence. Setting and achieving fitness milestones empowers you and improves your self-image.

Is exercise important for my future health?

Yes, engaging in regular physical activity during your school years sets a foundation for a healthier lifestyle in adulthood. It reduces the risk of chronic diseases and improves longevity.

What if I'm not good at sports?

You don't have to be a sports star to benefit from exercise. Find activities you enjoy and feel comfortable with. The important thing is to stay active and make it a part of your routine. We have deliberately included inclusive activities.

How often should I exercise?

Aim for at least 60 minutes of moderate to vigorous physical activity most days of the week to stay physically and mentally healthy.

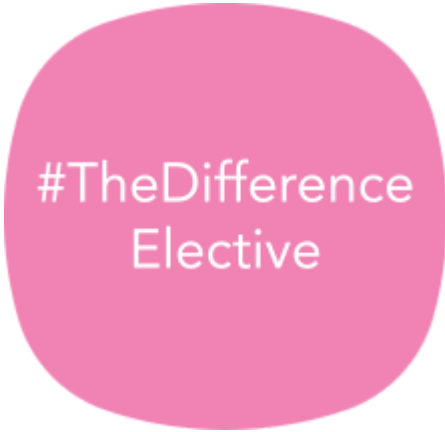

Will I need to get changed for the Physical elective?

No! On your physical elective day you can come to school in your full Coop PE kit.

Physical and
Wellbeing
Elective

#TheDifference Electives

Chess

Elective Summary

The Chess elective is a captivating space for members to explore the intricacies of the ancient game of strategy. Participants enhance critical thinking, problem-solving, and decision-making skills while fostering camaraderie. Whether beginners or experts, the elective provides a platform for intellectual growth, friendly competition, and a shared passion for the timeless game of chess.

What Knowledge Will I Gain?

Students will develop critical thinking, strategic planning, and decision-making abilities through chess. They'll learn the game's rules, tactics, and sportsmanship while enjoying intellectual challenges and friendly competition.

What Skills Will I Gain?

Members will cultivate critical thinking, strategic planning, and problem-solving skills. They'll also enhance their concentration, patience, and sportsmanship through engaging in chess matches and activities.

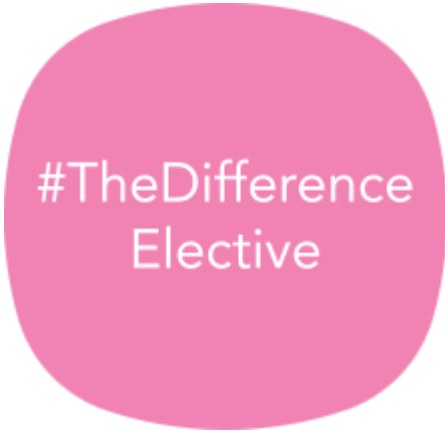

Which CARE principles will I develop?

How Does it Link to Future Careers?

Chess nurtures skills essential in various careers: critical analysis, strategic planning, adaptability, and decision-making. These qualities are valuable in fields like finance, law, technology, and management.

Further Reading and Information

Community CARE

Elective Summary

Community Cares is an elective where you can support Belle Vue's community plan. You will learn about the main priorities we are working to support in our local community, before actively engaging in the community and supporting local community groups and organisations across a variety of projects. A big part of Belle Vue's community plan is looking after our environment so if you choose Community Cares, you will be part of Belle Vue's Eco-club..

What Knowledge Will I Gain?

You will learn about the current challenges our community faces and how we can work together with local community groups and organisations to face these challenges. As part of Eco-club, you will learn the importance of environmentally friendly practices.

What Skills Will I Gain?

Communication, interpersonal and team building skills.

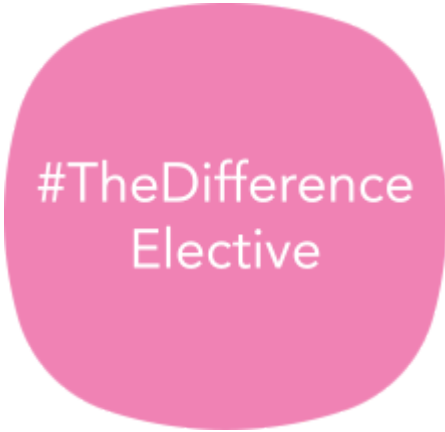

Which CARE principles will I develop?

Cooperation	Achievement	Responsibility	Enjoyment
Community	Ambition	Respect	Endeavor

How Does it Link to Future Careers?

It links to future careers as you will engage with local community groups and external organisations, giving you strong networking and interpersonal skills. If you enjoy supporting these groups, there may be opportunities for work experience placements in the future. You will also learn about careers within corporate social responsibility.

Further Reading and Information

Choir

Elective Summary

Singing as part of an ensemble. The school choir elective offers students a vibrant musical experience, fostering vocal skills, teamwork, artistic expression, and performance confidence. Participants collaborate to create harmonious melodies while building a sense of unity and discipline.

What Knowledge Will I Gain?

Participating in a school choir provides knowledge of vocal techniques, musical notation, harmonisation, and repertoire. Students also develop an understanding of teamwork, discipline, and artistic expression through performance.

What Skills Will I Gain?

Vocal skills, musical proficiency, harmonisation, and performance techniques.
